To: School Administrators, Teachers, PTO Members, Library Directors, and Event Planners

From: Anthony Marconi, Educational Assembly Presenter

Hello,

As you probably already know, it's difficult to find professional, curriculum based assembly programs that fit into your budget, and if you can find one, it could cost as much as \$750.00 plus travel expenses, a price that many schools and libraries simply cannot afford. To make things worse, time constraints often don't allow for programs that are merely entertaining: they must be educational in nature.

My name is Anthony Marconi, and I'm offering to bring to your school or library, a beneficial and affordable assembly program. Being a former special needs teacher, I'm well aware of the restrictive budgets most of you are forced to operate under that threaten to make quality programs for children a thing of the past. That's why I'm willing to help you and your children get the kind of quality assembly programs you deserve.

Here's How My Program Will Benefit You and Your Children

"No Bullies Allowed!" is a fun and educational program, perfect for kicking off any anti-bully campaign schools or libraries are using to encourage kindness and respect to reduce bullying and name-calling. This comedy magic show is filled with important life messages that encourage children to treat each other with respect and edify that respect is something you have to give in order to receive. They'll learn how we're all important people inside, no matter what our strengths, weaknesses, likes or dislikes are. The program gives them strategies for dealing with bullies, including the fact that it's okay to approach teachers and other adults for help.

For maximum effectiveness, I've developed two versions of this program, one for younger grades on their comprehension level, and one for older grades with more sophisticated segments. In fact, in the older students' assembly, I drive home the idea that it's up to them to set an example for the younger kids. I remind them that when they move on to middle school, they'll be the younger kids and won't want to be laughed at or pushed around. The children really appreciate the difference between the two because the younger ones may not quite get the material intended for the older ones, and the older ones may find the younger material too childish. If time or funding is an issue, one balanced program can be presented to all grades. Regardless of the size of the group, the children will be under control as they eagerly pay attention to the humor, amazing magic, music and audience interaction I use to enhance the programs concepts.

It's my belief that while the program is very valuable, for it to have a maximum effect, it's good to follow up with classroom discussions and projects. Both can be used to extend the life of the program long after I'm gone, ensuring lasting positive effects.

THE SHOW

The show sets up in about 30 minutes once I have my equipment in the building, meaning minimal disruption of your day and schedule. The show is very professional looking with a backdrop and a variety of tables and props, and music is used to enhance the event. Any magic is visible from virtually any area of the room and directly ties into the program.

Once the show is set to go, I like to take a few moments to address the teachers and other adults who will be watching the program before the children are seated, giving them a general idea as to what to expect, giving me the chance to encourage a follow up plan.

HASSLE FREE

The program was developed with your already busy schedules in mind. I provide the tables, props and sound system and I'm set to go when the children arrive. This means that there's nothing you need to provide other than a power outlet. I make the program so easy, all you have to do is provide the children, sit back, relax, and take all the credit!

Remember, you're getting a program with no inappropriate material, no sound system worries, a clean-cut professional presenter with years of experience, and a 100% customer satisfaction guarantee. Would your school or library benefit from a program like this? If so, please call me today to reserve your date and time.

Bring a Presentation to Your School, Library or Special Event

3 easy ways to book your show

- Go to <http://www.amazinmagic.com/> and fill out the short request form. I will send you all your information by email or call you to discuss your program needs.
- Email me at magicshowinfo@kc.rr.com to request pricing and availability information. I will send you all your information by reply email or call you to discuss your program needs.
- Call me at **774-317-8669** to discuss prices and availability.

This letter goes out to public and private elementary schools throughout KS and MO and typically gets a huge response. A lot of schools try to fit this program into the first two weeks of June as an end of the year treat for the children causing a lot of disappointment for last minute inquiries, so please book early. I hope to hear from you soon.
